Ukulele

PROFILE

Hard-working, quick learning Individual with a strong drive to constantly develop myself and enhance my abilities.

An individual with strong interpersonal and communication skills who enjoys working on teams.

Gaining a degree in Actuarial Science has given me a firm base and understanding of risk, mathematics, statistics, and probability and taught me how these complex subjects interlink. This background has allowed me to merge these concepts with my development and coding experience, and enhance my problem-solving ability using both of these skill sets.

EMPLOYMENT HISTORY

Business Analyst at Signature Business Solutions - Discovery Invest, Johannesburg
September 2020 — Present

Worked in a team, liaising daily with the Accounting team of VatGlobal to build and provide the necessary bank reconciliation requirements.

Provided theses solutions using iCompare, SQL Server Management Studio and SQL Server Reporting Services. This was accomplished by writing efficient stored procedures where complex logic was required.

After automating the processes at VatGlobal sufficiently I am now working on the processes as a consultant at Discovery Invest.

English Teaching Assistant at IES Margarita Salas, Madrid
September 2018 — July 2020

Mathematics and Sciences Tutor at Master Maths, Johannesburg
March 2018 — July 2018

OTHER EXPERIENCE

Design and Development of a website for an Independent Musician, Madrid
March 2020 — June 2020

Passport Pals, Johannesburg
July 2020 — August 2020

Built a web scraper that scraped Wikipedia data on visa requirements for all countries. Used MongoDB as the database, Express, and Node.js for the back-end. Any two people from two different countries can use the website to see where they can travel to together visa-free.

EDUCATION

Bachelor of Science in Actuarial and Financial Mathematics, University of Pretoria, Pretoria
November 2017

COURSES

Full Stack Web Development Bootcamp (Currently Completing), HyperionDev
March 2021 — September 2021

Javascript Algorithms and Data Structures, freeCodeCamp

APIs and Microservices, freeCodeCamp
July 2020 — July 2020

MTA: Database Fundamentals (100%), Microsoft

Completed all SQL problems, HackerRank
